Greetings Fellow Australians

And friends around the World,  
specially our American friends, We have a great story today  
which we expose.

Some of us have been trying to warn people and wake people up that all these **"Terrorist Staged Events"** & **"False Flag Terrorist Attacks"** carried out by Western Governments Police, Military and Intelligence Agencies had more meaning behind them.

They have been used as a **"Cover"** to push **"Nazi – Fascist Laws"** through most Western Countries ready inline – store for the formation of a **"One World Government"** to be run by United States of America, with the snappy dog Israel giving orders left, right and centre or threats of using the **"Sampson Option"** World Wide.

What did some people say and call us?

- That's all rubbish
- That's all nonsense
- That's all Conspiracy Theory
- You're a Tin Foil Hatter

And the names continued on and on, and what of the lying Mainstream Media?

They all called us the same names.

Where are they, why aren't they reporting this story?

And people living outside the USA who reads the following think this wont happen in their countries around the World, I have news for you, wrong!

## **Wrong!**

America has 700 US Military Bases World Wide.

Most Western Countries are (US Controlled Proxy Countries) all politicians and political parties have sold us all out, the only thing left to do is Officially hand our country over to America.

Ever since Dec 2011, I have had this funny feeling there was plans drawn up ready to implement and look here, its early May 2012 and "**Bingo**" Pentagon Plans have been "**Leaked**" ready to roll out and put into action.

A bit late now for anybody to do anything the final touches and plans are about all to be joined together placing putting the Whole World under a "Global Police State" controlled by the Zionist Bankers and run by United States of America.

**Welcomed** to **The New World Order** people.

## Leaked U.S. Army Document Outlines Plan For Re-Education Camps In America

Political activists would be pacified to sympathize with the government

Thursday, May 3, 2012

A leaked U.S. Army document prepared for the Department of Defense contains shocking plans for "**Political Activists**" to be pacified by "**PSYOP Officers**" into developing an "**Appreciation of U.S. Policies**" while detained in prison camps inside the United States.

The document, entitled FM 3-39.40 Internment and Resettlement Operations ([PDF](#)) was originally released on a restricted basis to the DoD in February 2010, but has now been made public.

The manual outlines policies for processing detainees into internment camps both **Globally and inside the United States.**

**?**

**Pentagon "Black Ops Rendition Group" Kidnapping people who speak out against United Snakes of America Nazi – Fascist Criminal Incorporated Republic?**

**?**

International agencies like the UN and the Red Cross are named as partners in addition to domestic federal agencies including the Department of Homeland Security and FEMA.

The document makes it clear that the policies apply "within U.S. territory" and involve, "DOD support to U.S. civil authorities for domestic emergencies, and for designated law enforcement and other activities,"

including “man-made disasters, accidents, terrorist attacks and incidents in the U.S. and its territories.”

Aside from enemy combatants and other classifications of detainees, the manual includes the designation of “civilian internees,” in other words citizens who are detained for, “security reasons, for protection, or because he or she committed an offense against the detaining power.”

Once the detainees have been processed into the internment camp, the manual explains how they will be re-educated, with a particular focus on targeting political dissidents, into expressing support for U.S. policies.

The re-education process is the responsibility of the “Psychological Operations Officer,” whose job it is to design “PSYOP products that are designed to pacify and acclimate detainees or DCs to accept U.S. I/R facility authority and regulations,” according to the document.

The manual lists the following roles that are designated to the “PSYOP team”.

- Identifies malcontents, trained agitators, and political leaders within the facility who may try to organize resistance or create disturbances.
  
- Develops and executes indoctrination programs to reduce or remove antagonistic attitudes.
  
- Identifies political activists.
  
- Provides loudspeaker support (such as administrative announcements and facility instructions when necessary).

- Helps the military police commander control detainee and DC populations during emergencies.
- Plans and executes a PSYOP program that produces an understanding and appreciation of U.S. policies and actions.

Remember, this is not restricted to insurgents in Iraq who are detained in prison camps – the manual makes it clear that the policies also apply “within U.S. territory” under the auspices of the DHS and FEMA.

The historical significance of states using internment camps to re-educate detainees is the fact that it is almost exclusively practiced by repressive and dictatorial regimes like the former Soviet Union and Stalinist regimes like modern day North Korea.

We have exhaustively documented preparations for the mass internment of citizens inside America, but this is the first time that language concerning the re-education of detainees, in particular political activists, has cropped up in our research.

In 2009, the National Guard posted a number of job opportunities looking for “Internment/Resettlement Specialists” to work in “civilian internee camps” within the United States.

In December last year it was also revealed that Halliburton subsidiary KBR is seeking sub-contractors to staff and outfit “emergency environment” camps located in five regions of the United States.

In 2006, KBR was contracted by Homeland Security to build detention centers designed to deal with “an emergency influx of immigrants into the U.S.” or the rapid development of unspecified “new programs” that would require large numbers of people to be interned.

Rex 84, short for Readiness Exercise 1984, was established under the pretext of a “mass exodus” of illegal aliens crossing the Mexican/US border, the same pretense used in the language of the KBR request for services.

During the Iran-Contra hearings in 1987, however, it was revealed that the program was a secretive “scenario and drill” developed by the federal government to suspend the Constitution, declare martial law, assign military commanders to take over state and local governments, and detain large numbers of American citizens determined by the government to be “national security threats.”

Under the indefinite detention provision of the National Defense Authorization Act, which was signed by Barack Obama on New Year’s Eve, American citizens can be kidnapped and detained indefinitely without trial.

Read a portion of the Internment and Resettlement Operations manual below.

### Chapter 3

alleged war crimes belongs to the U.S. Army Criminal Investigation Command. The SJA provides the U.S. Army Criminal Investigation Command with legal advice during war crime investigations.

#### PSYCHOLOGICAL OPERATIONS OFFICER

3-55. The PSYOP officer in charge of supporting I/R operations serves as the special staff officer responsible for PSYOP. The PSYOP officer advise the military police commander on the psychological impact of military police or MI actions to prevent misunderstandings and disturbances by detainees and DCs. The supporting I/R PSYOP team has two missions that reduce the need to divert military police assets to maintain security in the I/R facility. (See appendix J.) The team—

- Assists the military police force in controlling detainees and DCs.
- Introduces detainees or DCs to U.S. and multinational policy.

3-56. The PSYOP team also supports the military police custodial mission in the I/R facility. The team—

- Develops PSYOP products that are designed to pacify and acclimate detainees or DCs to accept U.S. I/R facility authority and regulations.
- Gains the cooperation of detainees or DCs to reduce the number of guards needed.
- Identifies malcontents, trained agitators, and political leaders within the facility who may try to organize resistance or create disturbances.
- Develops and executes indoctrination programs to reduce or remove antagonistic attitudes.
- Identifies political activists.
- Provides loudspeaker support (such as administrative announcements and facility instructions when necessary).
- Helps the military police commander control detainee and DC populations during emergencies.
- Plans and executes a PSYOP program that produces an understanding and appreciation of U.S. policies and actions.

This U.S. Army document is extremely important to read and understand.

This is an open call for government agents to literally pacify the resistance through a massive psyop program involving reeducation camps.

## U.S. Army Orders \$266 Million Worth of Ammo Amid Re- Education Camp Claims and Martial Law Drills on the Streets of America

ATK, the company now infamous for supplying upwards of 750 million rounds of .40 caliber hollow point ammunition to the Department of Homeland Security, has just secured a \$266 million dollar contract to supply ammunition to the U.S. Army.

**Alliant Techsystems Inc.** ( ATK) has entered into an Indefinite Delivery/Indefinite Quantity ("IDIQ") contract worth \$266 million with the U.S. Army. Per the contract, the company will supply small ~~neighbo~~ ammunition, including 5.56mm, 7.62mm and .50-caliber cartridges.

This ammunition will be manufactured in Alliant's Lake City Army Ammunition Plant in Independence, Missouri.

The U.S. Army and the company have jointly invested\$276 million in the modernization of the facility.

As a result, the company has already been able to scale up the new 5.56mm cartridge production under the Enhanced Performance Round as known to the U.S. Defense, " reported Zacks.com.

While this order is obviously much less startling than a domestic agency ordering millions of rounds of hollow point ammo, the fact that in 2008 the Pentagon announced plans to deploy a 20,000 strong internal military force inside the continental United States to be ready by 2011 makes this recent order at least worthy of discussion.

In a report published last year by theintelhub.com, this fact was heavily explored.

In 2008 The Pentagon announced plans to deploy a 20,000 strong internal troop force inside the continental United States (CONUS) that was set to be trained by 2011, thus dovetailing into the current troop and equipment movements around the country reported by truckers as well as many more troop sightings by everyday citizens.

Interestingly enough, this plan directly correlates with a 2009, Army funded, Rand Corporation study that called for an internal United States police force to combat civil unrest.

When you add the above facts with the recent photo of the U.S. Army training inside neighbourhoods in what can only be described as plans to take on the American people as well as the Infowars report on Army reeducation camps in America, a startling picture emerges.

"According to a report and post at The Libertarian Review, fully armed soldiers from the Minnesota National Guard, Unit 2-136 CAB (B Company) were photographed patrolling the streets of **Crookston, MN.**"

The report on Army reeducation camps outlines plans to literally pacify political dissents. (some have claimed that the document is not for use in the U.S. but all evidence and past history points to that being a disinformation talking point.)

"The document, entitled FM 3-39.40 Internment and Resettlement Operations (PDF) was originally released on a restricted basis to the DoD in February 2010, but has now been leaked online.

The manual outlines policies for processing detainees into internment camps both globally and inside the United States.

International agencies like the UN and the Red Cross are named as partners in addition to domestic federal agencies including the Department of Homeland Security and FEMA."

Again, a \$266 million dollar order by the U.S. Army is and should be normal but when you consider the literal hundreds of examples of their attempted use on the American people, including the shocking ones above, this order could very well mean more than more ammunition to fight "terrorists" outside the U.S.
